Application Guide for Approval of Casino Gaming Machines (Version 1)

Introduction

1. The Gambling Regulatory Authority of Singapore (“**GRA**”) is the authority responsible for supervising and regulating the casino gaming industry in Singapore.
2. This Application Guide outlines the process and requirements for an application to be made for gaming machines to be approved by GRA for use in a casino.
3. Under section 103(1)(a) of the Casino Control Act 2006 (the “**Act**”) and regulations made under the Act, a casino operator shall not use, or allow to be used, any gaming machine in its casino unless the gaming machine has been obtained from an approved manufacturer or approved supplier approved by GRA. Therefore, any manufacturer or supplier of gaming machines which intends to manufacture or supply gaming machines for use in any casino must first apply to GRA to be listed on the Approved List as an approved manufacturer or approved supplier.
4. For applications for approval of gaming equipment other than gaming machines intended for use in a casino, please refer to the “Application Guide for Approval of Casino Gaming Equipment” published on GRA’s website at <http://www.gra.gov.sg>.
5. This document should be read with the Act and relevant regulations made thereunder. “Gaming machine” and other terms defined in the Act or any regulations made thereunder, where they are used in this document, have the same meaning as in the Act or the regulations.
6. GRA reserves the right to amend this document from time to time without prior notice.
